

STRIKER

DUNNAGE BAG SYSTEM

NEW

The new Striker Dunnage Bag by Bates features an innovative valve system designed for efficient inflation.

INFLATION OPTIONS

FLEXIBLE - No air compressor, no problem!

Product code: 096308

Inflate dunnage bags on demand with the Striker Inflator Tool, the first of its kind to require no compressor or airline to operate.

Powered by battery, the Striker Inflator Tool offers a completely portable and efficient solution to inflating dunnage bags. Meaning no more costly air compressor systems and no more long air hoses.

Simply attach the Striker Tool to the dunnage bag valve and press the trigger. Fast to fill, easy to operate and 100% flexible.

FIXED - Using an air compressor?

We've got you covered!

Product code: 096306

As the Striker Dunnage Bags have a unique valve, an attachment is required for those with an established compressor or airline.

Simply attach the fixed inflator to the air hose, connect the easy grip clip to the dunnage bag valve and inflate!

THE STRIKER DUNNAGE BAG

Sustainable, water proof, and easy to inflate, the Striker Valve Dunnage Bags are the perfect protective solution to fill cargo voids.

Featuring the new patented venturi striker valve, for simple and fast inflation with the flexible or fixed inflator.

Made with a water-resistant paper outer layer, the bags are designed for longevity, capable of withstanding transportation for over three months.

BENEFITS & FEATURES

- ▶ 100% recyclable
- ▶ Quick to inflate
- ▶ Cost effective
- ▶ High performance
- ▶ Waterproof lining
- ▶ Ergonomic design
- ▶ Leak resistant valve
