FROMM FV350-90 Automatic Inline Orbital Wrapping Machine

The FROMM FV350-90 Automatic Inline Orbital Wrapping Machine is an automated system to stretch wrap long products such as pipes, tubes and rods. This fully automatic programmable machine with a 900mm diameter ring, when combined with conveyors, and safety systems is the ideal solution for small process lines.

Extremely low maintenance, the FROMM FV range is exceptionally easy to install & operate - Plug and play, no fuss.

Backed up by FROMM Packaging Australia, rent or purchase options, the FV350-90 delivers for the Australian industry. All equipment is supported by our on-site mobile service team and spare parts are readily available.

FROMM ADVANTAGE

Orbital Wrapping Film

For optimal wrapping efficiency we recommend our range of Orbital wrapping film. Talk to our friendly staff today!

⭐ Features

- Double reel film dispensers
- 900mm wrapping ring
- Adjustable speed (RPM)
- Mechanical film brake
- Easy to use
- Automatic film cutting at end of wrap cycle
- To be placed in production line
- Six wrapping programs available

➕ Benefits

- Twin wrapping heads for optimal function
- High production throughput
- Easily accommodate different products
- Reliable and robust
- Programmable wrapping functions
- FROMM 2 year warranty
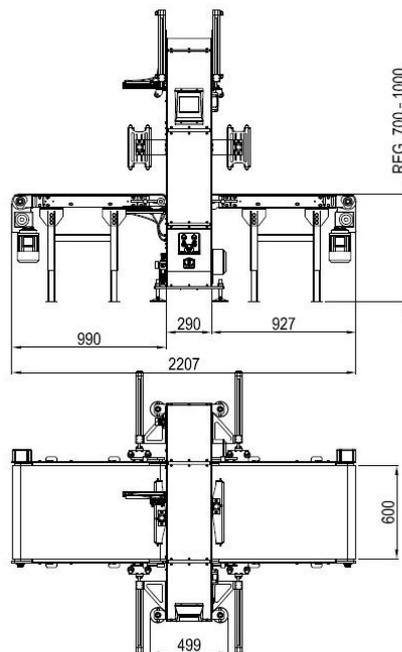

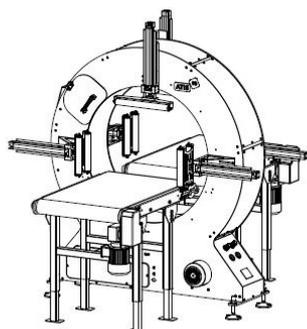

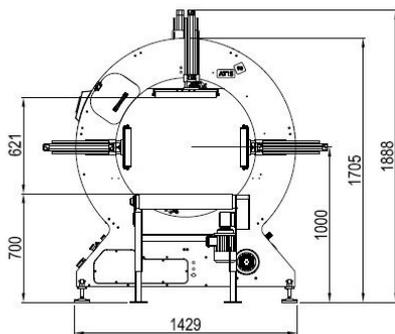

⭐ Technical Specifications

Ring:

Diameter (mm):	900
Max. rotating speed (RPM):	100

Product Size:

Max. product size (mm):	H 640, W 890
Min. product size (mm):	H 200, W 200
Max. product length:	No limit
Min. product length (mm):	500
Max. weight (kg)	Dependent on conveyors

Film Specification:

Width (mm):	100, 166
Thickness (um):	17 - 30

Power Supply:

240V, Single Phase, 50 Hz

Air supply needed:	6 bars

Power Consumption:

Power consumption approx. (kW):	0.97

Air Consumption:

12L / cycle

Machine Options:

Conveyors - infeed and outfeed
6 sided wrapping program
Automatic film cut and clamp
Top pressers
Bridge for short products
Safety system
